

Northstar Announces Acquisition of TAI Club Management Software

Alpharetta, GA - Jan 19, 2021, Northstar Technologies, the leading provider of enterprise management software for private and semi-private membership-based clubs, owner-associations and hospitality organizations, is excited to announce the acquisition of TAI Club Management Systems.

TAI was established to provide solutions to the Private Club and Public Golf course market sectors. The TAI Club Management software suite is the most continuously installed club software solution in the United States. TAI prides itself on its comprehensive and flexible software in the industry designed solely and specifically for the club industry.

“We are excited to welcome the TAI staff and clubs and look forward with great anticipation to harnessing the power of both technology platforms to bring the best software, the best member app and the best overall cutting-edge technology to the newest members of the Northstar family”, says Prasad Suryadevara, CEO of Northstar.

“This is an exciting time for TAI and the Club Industry! TAI occupies a unique spot in the club industry by providing a personal approach to our Clients. The substantial resources of a combined TAI/Northstar will allow TAI to do even more to support our current Clients and those future Clients that need what Northstar and TAI provides”, says Michael R. Talbot, President TAI Club Management.

About TAI Club Management Software

The TAI Club Management Systems was first developed in the 1970's as the first multi-user, multi-tasking club management system ever. TAI's list of accomplishments are many, however it is the dedication to clients, unequalled knowledge of the industry and attention to the individual needs of clients that defines TAI today. TAI provides solution for all types of clubs, golf, yacht, city, semi-private and other organization as in retirement communities, payroll deduct business and others.

About Northstar

Founded in 2003, Northstar is the leading provider of enterprise management software for private and semi-private membership-based clubs, owner-associations and hospitality organizations. The award-winning Northstar Club Software is innovative one-stop fully integrated solution built on highly scalable single database architecture, ensuring a robust and reliable system experience for clients and their members/guests. Northstar's software platform is currently used by over 800 membership-based clubs worldwide and is supported by over 220 full-time professionals in the US and around the world.
