

Northstar Technologies Acquires Chelsea Information Systems, Inc.

Alpharetta, GA: Oct 22, 2018 - [Northstar Technologies](#) is excited to announce the acquisition of [Chelsea Information Systems](#). Chelsea specializes in hosted reservation systems for the Club/HOA/POA industries. Chelsea has been a pioneer in providing robust golf, tennis, pickleball, and parking reservations systems.

Northstar is the leading Club Management Software provider with over 600 clubs world-wide. The award-winning Northstar Club Software is the one-stop solution for clubs and their members.

“Chelsea Reservations offers an exciting opportunity for Northstar to strengthen and expand its service offerings in the reservations area”, says Prasad Suryadevara, CEO of Northstar. “With the seamless integration of Northstar and Chelsea Reservations, clubs will have the best of both worlds”.

Lester Margolin, President of Chelsea Reservations, also commented, “Northstar’s acquisition of Chelsea provides a major growth opportunity for both the businesses through an extended service offering for our clients. I am excited about the opportunities that will occur.”

More information about Northstar and its complete product offerings can be found at the company website: www.globalnorthstar.com

About Chelsea Information Systems

Founded in 1987, Chelsea pioneered the industry with one of the first PC-based reservation systems. Chelsea’s hosted reservation systems offers the latest and most secure reservation system for more than 200 customers nationwide.

About Northstar Technologies

Northstar Technologies was founded in 2003 after identifying the need for innovation in the club industry. The Northstar system is the only club software in the market, centered around private club needs, that offers a single solution on one database. Northstar employs over 220 full-time professionals in the US and around the world. Northstar leads the club industry in innovation and is known for its 24X7 customer support.
